## 1 Purpose

---

The purpose of this policy is to set the standard level of privileges that will be granted to all User Accounts in the College of Arts and Architecture (hereafter, “CAA”) as documented by the College of Arts and Architecture Information Technology department (hereafter, “AAIT”).

## 2 Scope

---

This policy applies to all university-owned computers (operating in the college’s domain and accessing the Colleges Resources) University-owned computers are defined as any computer acquired using university general funds or grant funds administered through the university, regardless of the physical location of the computer.

## 3 Policy

---

Standard account creation for users in the CAA will be created in the standard user account mode. These accounts will be used to authenticate and access services and resources in the domains that are supported by the CAA. These accounts by default will never have administrative level privileges to the computers that are used by their respective users. Simply stated, these accounts will not be placed into the “Local Administrative Group” on their computers (for PCs), nor have the “Administrative” control active (for Macs).

## 4 Policy Exceptions

---

**Exceptions to this standard will be considered for the following circumstances, but is not limited to, faculty or staff who:**

- A. Connect to certain equipment or devices that cannot, within reason, be upgraded or replaced to the modern versions not requiring administrative access to operate;
- B. Frequently test or use new software that is not part of the standard college image;
- C. Frequent travel needs that require specific setting changes.

The approving authority for user account elevated privileges will be the IT Director for the CAA. A designated proxy may be assigned in a prolonged absence or emergency situation.

Further explanation regarding the exception process can be found in AAIT\_POL\_008- Request for Administrative Access.

## 5 Enforcement

---

Anyone found violating this policy may be subject to disciplinary action by his or her Administrative unit, the College, or the University.
